---

That is correct - an educated guess would be great. I actually need to file the Memorandum with the Court two weeks prior, so November 16 is my deadline. Not a lot of time I know, so if your answer is "we will have to wait and see" I get it. I just need to pass something along to the Court.

Thanks,

Scott

I will venture a guess a little later, but before 11/30. I will run some numbers and consult my contractors for a reality check. I assume you mean not just the EPA's planned work, but also removal of the solid waste.

I am VERY pleased to hear that things are moving forward for your deployment! As you know we have a hearing on the "Litter Cleanup Restitution Payment" on November 30. By statute that payment is mandated to be the greater of twice the cleanup costs or \$100 per cubic foot of solid waste. Do you think that you will have a rough idea of cleanup costs shortly after you start your deployment? I realize, of course that you will not have the test wells, pits and sampling results back, but I thought perhaps you might have some professional "guess" at total costs after spending some time on site. Is that realistic or not - I simply don't have the experience to know?

Give me a call if you wish to discuss.

Thanks,
